The meaning of Tayammum is rubbing the clean earth or dust to the face and two hands until the elbows with certain conditions. Tayammum or dry ablution is the replacement of ablution and obligatory bath as a concession (rukhsah) for those who are unable to use water due to certain reasons:

1. Sickness: If a Muslim use water, it may increase the illness or take time to be cured
2. Traveler or wayfarer
3. Unable to find any water

Allah mentioned in the Qur'an:

"O believers! When you rise up for prayer, wash your face and your hands as far as the elbows, wipe your heads with wet hands and wash your feet to the ankles. If you had an emission of semen, then take a full bath. However, if you are sick or on a journey or you have used the toilet or you had intercourse with your wives and you do not find any water than resort to tayammum-find clean soil and rub your faces and hands with it. Allah does not wish to burden you; He only wishes to purify and you to perfect His favor upon you, so that you may be thankful".
